June 14, 2005

Dear Valued Customer:

This letter is to inform you that CXR/Larus Corporation, effective January 1, 2005, has manufacturing discontinued the STS5400 Series Timing System and all of its attendant cards and modules. The STS5400 Series has been replaced with our new state of the art StarClock 100 and 200 STS54500 Series timing systems now in mass production.

As a courtesy to our customers who have purchased the STS5400 Series products over the past 10 years CXR/Larus will allow a last time buy at the pricing that you have enjoyed in the past for the next 90 days from the date of this letter. After that any orders for spares or replacement cards on the STS5400 Systems will be serviced at a 30% increase in the list price for the specific cards. No orders will be taken for complete system builds after the 90 day window.

CXR/Larus will continue to support the service, repair and maintenance of the STS5400 product for a period of 5 years from January 1, 2005. It should be noted however that the pricing for labor charges and component repair will most assuredly rise during the continued support period due to availability of components, materials, cost of labor, fuel, transportation etc. CXR/Larus reserves the right to change the repair pricing on the STS5400 cards at any time and without notice during the continued support period. CXR/Larus will always notify the customer when any of the products returned for repair are beyond economical repair during the extended support period.

We look forward to a continuing relationship with each of our loyal customers and supporting your timing and synchronization, transmission and test and measurement needs in the future with our exciting new products. CXR/Larus' mission and mandate is provide ever increasing levels of satisfaction to our customers by providing quality products and services, and adding value to our customer's business. Through a commitment to excellence in our products, service and delivery we will continue to meet and exceed your expectations.

Please visit our new website, www.cxrlarus.com, to see what is happening at our company and communications products CXR/Larus has to help you in your business.

Sincerely,

A handwritten signature in blue ink, appearing to read 'L. Taillie', is written over a horizontal line.

Lawrence Taillie
